PRODUCT **INFORMATION**

FUEL FILTER 50 013 032

NEW HOUSING MATERIAL FOR HIGHER CORROSION RESISTANCE

The housing material has been changed for the widely used fuel filter 50 013 032* from Kolbenschmidt. Instead of stainless steel, the housing is now made of aluminium. The change in material ensures better corrosion resistance. The filter performance and the filter core are unchanged and continue to have the usual Kolbenschmidt quality.

The fuel filter for petrol is intended for installation in the line and is used in older vehicles.

All content including pictures and diagrams is subject to change. For assignment and replacement, refer to the current catalogues or systems based on TecAlliance.
Names, descriptions and numbers of engines, vehicles, products, manufacturers etc. are mentioned solely for the purpose of comparison.
