ŠKODA ENYAQ iV, ENYAQ

Type 5AZ

10.2020 -

How to select the correct coil spring for your vehicle !

The Enyaq iV and Enyaq are equipped with drive batteries with various capacities and electric motors with different power ratings.
The quickest and most reliable way to select the correct replacement coil spring for your vehicle is explained here.

Colour code and marking on the spring

Original front coil springs for the Enyaq iV and Enyaq carry a colour code that can be used to identify the original part number of the spring that was factory-installed in the vehicle. The colour code can be seen without removing the spring from the vehicle, as shown in the photo below. Rear coil springs do not carry a colour code but, instead, a white label that shows the original equipment part number of the coil spring. This label is more difficult to access and requires the vehicle to be raised on a lift and approached from the rear in order to read it. Use the front- and rear coil spring tables shown below to select the correct ERL reference for your vehicle.

Front Spring
Example
Colour code : 1x yellow, 1x brown, 1x violet
OE-No. 5Q0 411 105 DR
Eibach-Ref. **R22922**

Rear Spring
Example
Code : 1EA511103H
OE-No. 1EA 511 103 H
Eibach-Ref. **R22942**

Front Coil Springs

ERL-Ref.	OE-No.	Colour Code		PR-Code Front Axle	Note
R22933	5Q0 411 105 FT		1x white, 1x yellow, 1x violet	G01 | G03	Standard Suspension | DCC Suspension
R22935	5Q0 411 105 GA		1x white, 1x yellow, 2x violet	G01 | G03	Standard Suspension | DCC Suspension
	5Q0 411 105 GB		1x white, 1x yellow, 1x blue	G01 | G03	Standard Suspension | DCC Suspension
R15459	5Q0 411 105 HT		1x grey, 1x green	G01 | G03	Standard Suspension | DCC Suspension
R10712	5Q0 411 105 DQ		1x yellow, 1x brown, 1x red	G01 | G03	Standard Suspension | DCC Suspension

Spring Seat for the Front Coil Spring

Eibach recommends replacing the lower spring seat (OE-No. 5Q0 412 545 D) where the front spring locates on the damper whenever new front coil springs are installed.
This rubber spring seat prevents metal-to-metal contact between the coil spring and the damper plate, thus extending the service life of the coil spring.
In addition, it serves to reduce noise transmission into the vehicle interior.
This spring seat is subject to wear and tear and should be inspected and replaced if damaged.

Spring Seat for the Rear Coil Spring

Eibach supplies rear coil springs for the Enyaq iV and Enyaq with a clip-on rubber spring seat that locates in a plastic retaining cup at the lower end of the coil spring. This cup can be easily removed from the defective coil spring and, after cleaning and inspection, should be fitted to the spring seat supplied with the Eibach coil spring.
The plastic retaining cup is not subject to wear, but should be inspected for damage and replaced if necessary.
New plastic retaining cups are available from Škoda under the part number 1EA 512 297.

Overview of Primary- and Optional Suspension Codes (PR Code)

Primary- and optional suspension types, ex factory	PR-Code Front|Rear
• Standard Suspension (Standard Ride Height)	G01 | 1JA
• Sport Suspension with lowered chassis (front -15 mm, rear -10 mm)	G02 | 1JC
• DCC Suspension (Standard Ride Height)	G03 | 1JP

DCC Suspension - Vehicles with Adaptive Damping Control

Where can I find the PR codes for my Enyaq ?

A list of the primary equipment installed on a vehicle and the corresponding PR codes can be obtained from any Škoda main dealer after providing the VIN number or, alternatively, via an online VIN decoder, e.g. **www.partslink24.com**
