

RUST REMOVER

- DESCRIPTION**
- DRIVE+ Rust Remover is a high-performance penetrating formula developed to free rusted, seized, or corroded mechanical components. Its exceptional capillary action allows the product to infiltrate tight joints, threads, and interfaces where corrosion has caused binding, enabling fast and effortless disassembly during workshop operations.
- Fast-acting rust breakdown for quick release of bonded parts
 - Superior capillary penetration into micro-gaps and corroded threads
 - Non-silicone formulation — compatible with repainting and surface treatments

- APPLICATIONS**
- Loosening rusted bolts, screws, nuts, hinges, and fittings
 - Assisting in the dismantling of corroded machinery or equipment
 - Penetrating tight mechanical assemblies affected by oxidation
 - Suitable for automotive repair, industrial maintenance, agricultural machinery, and marine service

- INSTRUCTIONS**
1. Shake the aerosol can thoroughly before use.
 2. Spray directly onto rusted or seized components from a distance of 15–20 cm.
 3. Allow 2–10 minutes of penetration time, depending on the severity of corrosion.
 4. Attempt to move or dismantle the part; reapply if necessary.
 5. Wipe off excess product with a clean cloth after use.

PRODUCT INFORMATION

Part Number	EAN	Capacity	Quantity / carton	Languages
DWC0003A	7630744111446	400 ml	12	EN · FR · DE · IT · NL · TR · RU · DA · FI · SV · AR
DWC0003B	7630744111828	400 ml	12	EN · ES · PT · PL · RO · EL · UK · SR · BG · HU · CS · HR

TECHNICAL PROPERTIES

Colour	Yellowish
Odour	Characteristic
Chemical basis	Lubricating oils with hydrocarbon solvents
Density at 20°C	~0.69 g/cm ³ (aerosol)
Temperature range	0 to 40°C
Shelf life	24 months from production date
Packaging	Aerosol spray
