

MEYLE PD: Advanced performance and design.

Better components for better products

Maximum braking performance ✓

- New friction materials for excellent and consistent friction coefficient as well as quick and excellent responsiveness

Silent operation ✓

- Additional adhesive between shim and backing plate guarantees better bonding and leads to advanced damping properties to reduce noise
- Individual anti noise shims, slotting and chamfering designed for each brake pad further support a silent performance

Short bedding-in time ✓

- Individualised friction materials and special brake pad coating* leads to short bedding-in time

Cleaner wheels ✓

- Advanced friction materials lead to less brake dust development

MEYLE PD: ✓

- 1200 discs and pads
- Individualized performance properties
- High end-consumer benefits

Meets and exceeds highest quality standards ✓

- Meets and exceeds ECE R90 regulation
- Free of heavy metal and copper

Advanced design
and technology

PD:
Outperforming OE

Tailored to drivers needs:
Sporty, comfortable, durable

Meets and
exceeds ECE R90

*depending on friction material
