**CAUTION!**

## Different versions of the crankshaft gears in sets 59828Set and 59829Set

To ensure that the correct gear size is installed, please compare the crankshaft gear currently installed with the one included in the set. The gears in sets 59828Set and 59829Set have different heights. Therefore, please pay attention to the different versions, as installing the wrong crankshaft gear can result in engine damage.
