

FERODO®

DISCOVER THE NEW FERODO® COMPOSITE ROTORS

CHOOSE THE POWER OF PERFORMANCE

▼ STATE-OF-THE-ART BUILD QUALITY

- Combining a **high carbon cast iron braking surface** and **lightweight aluminium bell**
- Connected via a **stainless steel pin**

▼ MAXIMUM PRECISION & PERFORMANCE

- **Enhances braking performance**
- Respects casting criteria while **retaining the technical specifications** of the original rotor

▼ LIGHTWEIGHT CONSTRUCTION

- **Up to -30% weight reduction**
- **Reduced vibrations**
- **Reduced fuel consumption and emissions**

▼ THE POWER OF PERFORMANCE

- The result of continuous **research and development**
- For **unmatched driving comfort**
- **Outstanding durability** for high performance driving
