This is a higher TBN 15 semi synthetic lubricant based on carefully selected very high quality base oils of the latest generation, for the lubrication of all diesel engines in on- and off-highway applications. The excellent fluidity at variable temperature conditions reduces wear and fuel consumption. Its high thermal stability and embedded dispersants allows longer oil drain intervals and keeping the engine parts cleaner in more extreme conditions.

APPLICATIONS

This oil is suitable for heavy-duty on- and off-highway applications, agriculture and construction.

FEATURES

Engine protection: high level of engine cleanliness and durability
Cold start: very good fluidity at low temperature
