

DRIVER'S BEST FRIEND

MEYLE

MEYLE-HD: Better than OE.
Designed for a long service life

Water pump bearing HD:

Equipped with 4-point ball roller bearings (depending on application):
Better distribution of high radial forces & increased axial support.

Or:

Equipped with angular contact ball bearings (depending on application):
Absorption of axial and medium radial forces as well as increased axial support.

SiC/SiC mechanical seal:

- Extreme hard sliding rings, resistant against abrasive contamination
- Rubber made of HNBR for high temperature resistance
- Housing made of high-quality stainless steel
