

# Solution

## It fits!

**Modified strut bearing with centring pin.  
Suitable for the BMW series:**

## BMW E36, Z3 and Z4

**SWAG no. 20 92 43 16  
reference number 31 33 6 769 585**

As well as a new internal design and material, the modified febi strut bearing now also boasts a centring pin. This allows the bearing to fit into the Z4.

**Your advantage in terms of quality:**

The strut bearing is now made of aluminium.

When installing it in the E36 and Z3 please note that the centring pin must first be removed.

As well as the new strut bearing SWAG no. 20 92 43 16, SWAG also offers the existing version SWAG no. 20 54 00 02/ref. no. 31 33 1 092 885.
