TB0008 - TCK43 & TCK43L

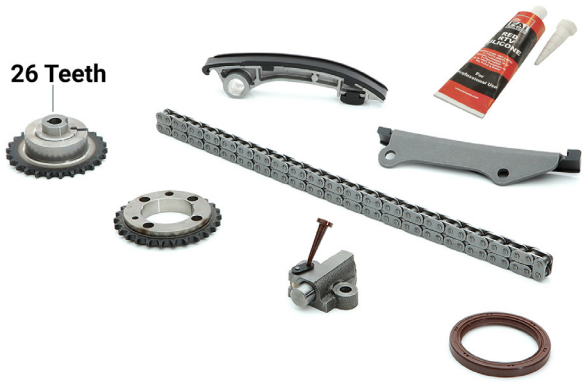

NISSAN, RENAULT & OPEL/VAUXHALL (ZD30)

The Nissan ZD30 engine is a family of 3.0 diesel, in-line four-cylinder engines. It was launched in 1999 and comes as either turbo or non- turbo. Latest generation engines are common rail.

FAI offer two chain kits for this engine with significant differences in components dependent on application and year model.

Please check before installation to ensure correct fitment and function.
