In the models and engines listed below, vehicle manufacturers Audi and Volkswagen have converted the timing belt from 152 teeth to 153 teeth. Timing belts with 152 teeth are **no longer available**. Workshops are urged to carry out conversion on vehicles that have a timing belt with 152 teeth. Vehicles that have already been converted can be identified by the hydraulic damper.

 Note the specifications of the vehicle manufacturer!

Schaeffler Automotive stocks the relevant timing belt kits. When selecting the products, observe the following classifications:
