SYSTEM

THE DIFFERENCE

EXCELLENT **CONDENSER** REPLACEMENT

Whenever the system requires dependable and well-performing condenser replacement, Nissens Condenser is an excellent, reliable choice for the best-in-class AC service.

CORROSION-PROTECTED, LONG-LIFE CONDENSER

Specially designed powder coating protects the condenser against corrosion securing its long life despite harsh conditions such as humidity, road-spread salt, and dirt.

FIRST FIT - EXTRA PARTS FOR EASY INSTALLATION

Extra parts like o-rings / mounting bolts are included in the part's box whenever necessary. The part fits the vehicle's layout precisely.

GAS-FILLED CONDENSER

Factory pressurized neutral gas filling (Nitrogen) and couplings sealed with tight caps keep the dirt and moisture from getting inside the condenser.
