

ŠKODA KODIAQ II

Type PS7

01.2024 -

How to select the correct coil spring for your vehicle !

The following tables list all part numbers for the front- and rear coil springs specified by Škoda for the Kodiaq II. The quickest and most reliable way to select the correct replacement coil spring for your vehicle is explained here.

Colour code and marking on the spring

Original front coil springs for the Kodiaq II carry a colour code that can be used to identify the original part number of the coil spring that was factory-installed in the vehicle. The colour code can be seen without removing the spring from the vehicle, as shown in the photo below.

Rear coil springs do not carry a colour code but, instead, a white label that shows the original equipment part number of the coil spring.

This label is more difficult to access and requires the vehicle to be raised on a lift and approached from the rear in order to read it.

Use the front- and rear coil spring tables shown below to select the correct ERL reference for your vehicle.

Front Spring

Example

Colour code : 1x yellow, 1x brown, 1x violet

OE-No. 5Q0 411 105 DR

Eibach-Ref. **R22922**

Rear Spring

Example

Code : 5QS511103F

OE-No. 5QS 511 103 F

Eibach-Ref. **R22919**

Front Coil Springs

ERL-Ref.	OE-No.	PR-Code Weight Class and Colour Code		PR-Code Front Axle	Note	
R22921	5Q0 411 105 DK	L21		1x yellow, 1x violet, 1x green	G01 G06	Standard- / DCC Plus Suspension
	5Q0 411 105 DL	L22		1x yellow, 1x green, 1x brown	G01 G06	Standard- / DCC Plus Suspension
R10710	5Q0 411 105 DM	L23		1x yellow, 1x brown, 1x white	G01 G06	Standard- / DCC Plus Suspension
	5Q0 411 105 DN	L24		1x yellow, 1x brown, 1x yellow	G01 G06 G07	Standard- / DCC Plus Suspension
R10712	5Q0 411 105 DP	L25		1x yellow, 1x brown, 1x orange	G01 G06 G07	Standard- / DCC Plus Suspension
	5Q0 411 105 DQ	L26		1x yellow, 1x brown, 1x red	G01 G06 G07	Standard- / DCC Plus Suspension
R22922	5Q0 411 105 DR	L27		1x yellow, 1x brown, 1x violet	G01 G06	Standard- / DCC Plus Suspension
-	5QF 411 105 N	L28		1x orange, 1x red, 1x orange	G01 G06	Standard- / DCC Plus Suspension

DCC Suspension - Vehicles with Adaptive Damping Control

Spring Seat for the Front Coil Spring

Eibach recommends replacing the lower spring seat (OE-No. 5Q0 412 545 D) where the front spring locates on the damper whenever new front coil springs are installed. This rubber spring seat prevents metal-to-metal contact between the coil spring and the damper plate, thus extending the service life of the coil spring. In addition, it serves to reduce noise transmission into the vehicle interior. This spring seat is subject to wear and tear and should be inspected and replaced if damaged.

Spring Seat for the Rear Coil Spring

Eibach supplies all rear coil springs for the Kodiah II with a rubber spring seat firmly installed on the lower coil.

Available in four different sizes and covering a wide range of wire diameters, these rubber pads significantly reduce corrosion of the coil spring and the lower suspension link where they meet, while also also minimising noise transmission from the road into the passenger compartment.

Overview of Primary- and Optional Suspension Codes (PR Code)

Primary- and optional suspension types, ex factory	PR-Code Front Rear
• Standard Suspension (except 1.5 TSI iv PHEV)	G01 1JA
• Standard Suspension (1.5 TSI IV PHEV)	G07 1JA
• DCC-Suspension	G06 1JP

DCC Suspension - Vehicles with Adaptive Damping Control

Where can I find the PR codes for my Kodiah II ?

A list of the primary equipment installed on a vehicle and the corresponding PR codes can be obtained from any Škoda main dealer after providing the VIN number.
