BOGAP

PREMIUM CONTROL VALVE, CAMSHAFT ADJUSTMENT

Precision Engineering. Rigorous Quality Control.
Reliable Performance.

Micron-Level Precision

Precision-matched valve core and sleeve with tightly controlled clearances.

High-Temperature Coil Reliability

OE-quality enamelled wire with 100% coil resistance and insulation testing.

High-Precision Filtration

Stainless steel filter mesh with 50–80 µm filtration accuracy.

High-Temperature Alloy Spring

Durable alloy spring steel with batch-by-batch spring force sorting.

100% Functional Testing

Comprehensive full-function inspection before shipment.
