

# MANN-FILTER

## Product Information

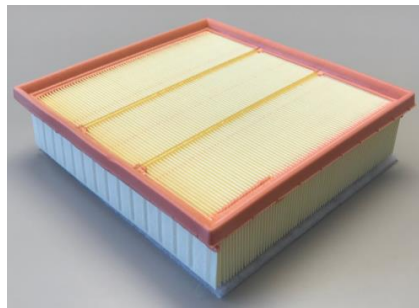

No. 154  
14.01.2020

### **MANN-FILTER C 22 039 will replace the OE-Filters 17801-31131, 1500A608 and 53146541 (Lexus, Toyota und Jeep)**

Because of the great filter performance, the new MANN-FILTER C 22 039 is going to replace other OE-Filters. The required original equipment values are mainly achieved by the good filter medium and the pre-nonwoven. This makes it possible to replace the filter for Lexus/Toyota (OE-No. 17801-31131), which is manufactured without pre-nonwoven and without grid, and the filter for Jeep (OE-No. 53146541), which is manufactured without pre-nonwoven but with grid.

Consequently three different filters are covered by one MANN-FILTER product.

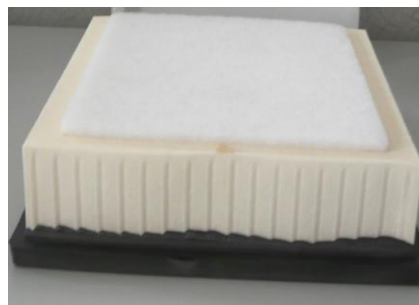

MANN-FILTER C 22 039

OE-No. 531465441

OE-No. 1500A608

OE-No. 17801-31131
