TCK47

Replaces the need to stock 8 kits from other suppliers

Fits FORD Duratorq engines of 2.0, 2.2, and 2.4 litres up to 2006.

- TCK47 is a **single kit** available for all of these engines.
- Using kits from other suppliers could require at least **eight** different parts numbers.
- TCK47 will replace **like for like** timing chains and ancillaries fitted to Duratorq engines fitted in Transits and Mondeos.
- TCK47 can '**upgrade**' low power output engines using a simplex chain, or intermediate output engines, using a light-duty duplex chain.
