

Heatshrink Tube

This braided fabric-fibre hose was primarily developed to ensure high mechanical abrasion protection for components such as rubber hoses, plastic pipes and cable bundles. The

hose is also ideally suited for rattling protection (for noise damping). Other product features:

- Easy to install
- Very flexible

Shrinkage Rate:	2:1	Packing Type:	Bag
Material:	Polyester	Diameter 1/2:	30 / 15 mm
Temperature range:	-40 to +125 °C	Inspection Tag:	TL 52668
Heat shrink tubing length variation:	-10 %		FMVSS 3022
Wall Thickness:	1 mm		ISO 16750-5
