

NUMBER OF CONNECTIONS

60776

Nissens radiator 60776 covers both first and second version of BMW radiators which have different number of connections.

First version radiator: Before 05-2010

The first BMW radiator version had 4 connections used in connection with hose OE 1153 7581 870 (red). This expired 05-2010.

In the first version the hose is also connected to the fourth connection in the radiator.

Second version radiator: After 05-2010

The second BMW radiator version after 05-2010 only has 3 connections used with hose OE 1153 7581 872 (blue).

In the second version the hose is only connected to three connections in the radiator.

Both hose versions are connected to the engine oil heat exchanger and to the water hose.

For more technical product information, please consult our online catalogues at www.nissens.com/catalogue, or contact your local sales office or one of the official Nissens distributors.
