SERVICE INFO

Catalogue clarification for Mercedes applications

Equipment Variant numbers

Manufacturer : Mercedes

Models: Various

Part Numbers : Various

For current listings refer to parts catalogue.

On some of the Mercedes applications extra information may be required to ascertain the correct parts for the vehicle. This "Equipment Variant" is provided with the vehicle documentation when new. It can also be found on the Mercedes EPC.

On the example shown the "Equipment Variant" is listed against the CSC. The CSC listed is only applicable for this variant, other variants may use another CSC or even a conventional release bearing and fork arrangement.

	<p>Clutch Kit LuK RepSet Pro 623 3312 33 Article status: Normal Equipment Variant: SA515411 01 Diameter [mm]: 230; for vehicles with double disc clutch; with central slave cylinder; Requires special tools for mounting; Engine Version: for engines with dual-mass flywheel; Check and replace dual-mass flywheel if necessary.</p>
