

TECHNICAL REPORT

Differences between cylinder
head cover gaskets 11094700
& 11123600 for 1.7 CDTI Opel
engines

PURPOSE

Indicate the **main differences between mentioned OPEL gaskets** in order to assist AJUSA customer when selecting the correct gasket depending on the engine number.

DESCRIPTION

In the popular 1.7 CDTI turbo diesel engine manufactured by Isuzu, fitted in several Opel models and also in some Honda models, we can find several engine numbers, very similar each other but with some differences. The main difference and the reason of this technical report is located on **the cylinder head cover gasket**.

Although the engine types listed below install the same cylinder head they can fit different cylinder head covers. These cylinder head covers are very similar in design but there are differences on gasket housing dimensions, so please take care when choosing the gasket to avoid oil leakages.

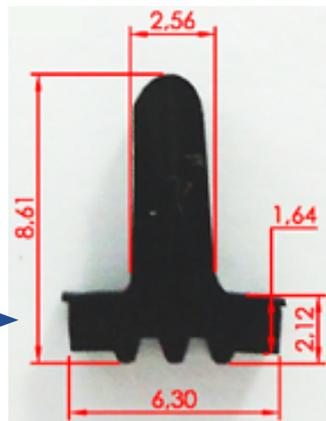

In this way, the correct gasket for any engine type would be as follows:

ENGINE TYPE	BRAND	MODEL	AJUSA PART NUMBER
Z17DTH	OPEL	CORSA C	11123600
		MERIVA	
		ASTRA H	
Z17DTL		ASTRA H	
		ZAFIRA	
		MERIVA	
4EE2	HONDA	CIVIC 16V	
Y17DT	OPEL	MERIVA	11094700
		COMBO TOUR	
Y17DTL		CORSA C	
		MERIVA	
		ASTRA G	
		ZAFIRA A	
		COMBO TOUR	
		CORSA C
